LaTeX: A Document Preparation System | Leslie Lamport ...

LaTeX, pronounced lay-tech, is a document preparation system commonly used by scientists, engineers, mathematicians and other professionals. Unlike a typical “what you see is what you get” word processor such a Microsoft Word, LaTeX uses a plain text markup language which is compiled into a PDF document using optimal typographical rules.

LaTeX Templates » What is LaTeX?

The cells in which latex is found make up the laticiferous system, which can form in two very different ways. In many plants, the laticiferous system is formed from rows of cells laid down in the meristem of the stem or root. The cell walls between these cells are dissolved so that continuous tubes, called latex vessels, are formed.
